- Partner @ BIAS Architects & Associates, Taipei
- Editorial director @ ListLab, Barcelona  
**asma.meetarch@gmail.com**

# World Council 2023

Key items to report at the APR Regional Council

- 1. After World Council 2023, expected restructuring in the structure of IFLA, the Committees, and Working Groups at the World level.**
- 2. After World Council 2023, it has been approved a Global Recognition Program for Landscape architecture education (bachelor programs).**

# World Council 2023

## Key items to report at the APR Regional Council

### **1. Restructuring**

- Establishment of a Corporate Governance Revision Working Group (CGRWG)

mandated to present a revised constitution and by-laws for the next World Council for approval.

- Establishment of a Congress Revision Working Group (CRWG)

mandated to present a revised operational model for the next World Council for approval.

- Establishment of a Standing Committee Revision Working Group (SCRWG),

mandated to present a revised structure of standing committees and WGs for the next World Council for approval.

# World Council 2023

Key items to report at the APR Regional Council

## 1. Restructuring

- Consequently, positions will be available for interested delegates upon candidature at the:

Corporate Governance Revision Working Group (CGRWG)

Congress Revision Working Group (CRWG)

Standing Committee Revision Working Group (SCRWG)

- At the same time, IFLA APR region should consider **HOW DO WE PARTICIPATE** the ongoing transformation, especially in consideration of the restructuring of EAA-CER-PPP-FBP standing committees and working groups.

# World Council 2023

Key items to report at the APR Regional Council

## 2. Education Recognition

- In the APR Region, we have an **Accreditation and Recognition Program V2** active since 2018, with IPB Bogor Indonesia being the first program to achieve renewal of accreditation in 2023;

- **Our region was strongly participating in the development of the Global Recognition Program**, due to the regional experience and a pilot study in the region, and now this is approved by the World Council. Anyhow, this does not overwrite our system. Indeed, it targets IFLA World members under development.

**Regional Accreditation and Recognition IMPLIES Global Recognition. This is due to our strong participation.**

As a rule of procedure, regional institutions must take the regional pathway, first and foremost, unless special conditions.
